

THE KID LIFE

Hey, I'm Christina and for the past 6 months, I have been covering a maternity leave here at Mapleview as the Children's Pastor. It has been such a blessing to facilitate the children's program and connect with families.

In light of Covid, we adapted to serve our families and community in some new ways! In the summer, we had a blast connecting with families every week during our drop-in program, Wacky Wednesday. We also held our 2nd Trunk or Treat family event where over 400 people from the community joined us! It was an amazing opportunity to meet families from the community and introduce them to Mapleview.

By September we were back in full swing, sharing and teaching each child that they are made new through Jesus. Along with that, we have been intentional about creating time for children to learn and memorize bible verses! Our desire through these memory verse activities is to let the Word of God be the foundation of the every child's life who attends Mapleview.

As Covid restrictions lighten up, we look forward to providing more opportunities for families and children to connect and deepen their relationship with God!

Respectfully submitted,
Christina Rogler
