

PRODUCTION

The year 2024 has been a year of strategic growth and continued dedication for Mapleview's Production Department. As we look back on the year, we can confidently say that our team has continued to push the envelope in sound, video production, and technical support on a consistent basis.

One of the major achievements in 2024 was the strengthening of our lead team. We focused on building a leadership structure within the production department to streamline operations and provide mentorship to our volunteers. This move has been great in ensuring that we maintain a high standard while also creating a collaborative, growth-oriented environment.

In addition to team development, we undertook a significant renovation of our Front of House (FOH) sound booth to better accommodate the needs of our growing tech-needs. The upgraded booth now offers improved functionality and flexibility, ensuring that our Sunday services and large events are supported by the right equipment.

We continued to successfully stream and produce all weekly services, reaching an expanding online audience. The integration of multimedia elements into church events and programs has elevated the overall experience for both our in-person and online services.

The growth of our team's technical & leadership skills has played a big role in these accomplishments. Teams like Carter, Kaylie, and Jillian have gone above and beyond to ensure the seamless execution of behind-the-scenes projects. Along with the hard work of our sound techs, video directors, camera ops, lighting techs, and other key contributors, this team has been the reason behind our success.

Looking ahead to the future, we are excited about the continued growth and opportunities within the Production Department. With a strong team, we are confident that we will continue to enhance the worship experience for our congregation and online audience, building on the momentum we've established in 2024.

In conclusion, 2024 has been a year of strengthening foundations, embracing change, and setting the stage for even greater accomplishments. Together, we will continue to lead with excellence and creativity in all that we do.

Respectfully submitted,
Chase Godmere
Director of Production
