

PRODUCTION

2022 was the year we got back into our rhythm and found a steady pace within our production world again. After the past few years of moving online, outside and everything in between, 2022 was a change we were ready for.

This year we put our focus into building teams and working on building our skills. Sunday services are our main focus and it really takes a team to make them happen. We have many streams of production with passionate and skilled people willing to volunteer their time and resources to help our services be successful. The team includes sound technicians (both in person and online), video directors, camera operators, lighting operators, editors, and more.

Working with the Creative Team, we have been able to do some exciting things this past year including the 25th anniversary curtain drop, special lighting, our Christmas spectacular, stage design and more. It is truly an honour to be a part of the staff team and always great to find new and exciting ways to share the church's themes.

I am so blessed to have people willing to use their gifts and talents to serve in this area. Thank you to all my teams for the constant support, and for faithfully showing up so we can do our best to make Sunday services possible both in-person and online. There are also teams beyond Sunday who work during the week to keep our online presence up to date with YouTube, social media, E-blasts, along with our road signs, billboards and so much more.

I truly believe that production is more than just a team, but a ministry where we are able to use our gifts to bring glory to God and make His name known. I am so honoured to oversee this ministry.

Respectfully Submitted,
Chase Godmere
